Task Management Velocity

The length of Sprint 0 was 11 days. In the beginning of the sprint the team projected that it would take about 40 hours to complete all tasks. In the end we discovered that we gave too much time for some tasks and ended up finishing all of our tasks in 28 hours. The attached graphs show an in depth look into our task breakdown. The group decided that each task should be around 2-3 hours.

Sprint Backlog

- As a user, I want easy accessibility and readability of the recipe so that I don't have to search hard for what I want. (21 points)
- As a user, I would like no distractions or pop-ups that get in the way of my recipe instructions so that I can have a smooth cooking experience. (5 points)
- As a user, I would like to view recipes sorted by multiple categories (cuisine, calorie approximations, time time required, cost/price, and) in order to easily search for certain recipes. (21 points)
- As a user, I would like to view the approximate calorie count of the meal that I am making in order to keep track of my daily calorie intake. (5 points)
- As a user, I want to view the cooking order that would need to be completed the specified meal. (14 points)
- As a user, I want to view recipes that I like to save in order to view and use them again in the future. (5 points)
- As a user, I want to be able to see possible recipes I can make based on the ingredients I already have in order to get recipe ideas. (5 points)
- As a user, I want a friendly and visually appealing UI in order to have a nice cooking experience. (14 points)
- As a user, I would like to see a simple menu for sorting out different cultural foods as well as a sorting feature for cooking time in order to categorize which recipe I'd like to make. (8 points)
- As a user, I want a system that gives alternate ingredient suggestions in order to be more flexible with a recipe in case I don't have specific ingredients. (8 points)
- As a user, I want a method to tell how difficult the recipe is to make in order to help decide which recipe I can make based on my skill level. (8 points)
- As a user, I want to see beginner-disrupted options for the recipe in order to help me decide which recipe to make at a glance. (5 points)
- As a user, I want to have food suggestions based on what I cooked in order to try other foods similar to what I've just made. (5 points)
- As a user, I want a sorting system of ingredients that I can use (recipes) may be enough to. (5 points)
- As a user, I want to be able to track more than one recipe at a time in order to cook multiple recipes efficiently. (5 points)
- As a system admin, I want to be able to add a new user so that they can become an Account user.

10/16/2019

- As a system admin, I want to be able to delete an Account user so that Account cannot be used.
- As a system admin, I want to be able to update the details of my application so that the application will keep updated details always.
- As a guest user, I want to be able to search for recipes so that I can use the feature of the system to search for the recipe and preparation that I need.
- As a guest user, I want to be able to sort the recipes I have searched so that I can view them by multiple categories in order to search for specific ones.
- As a guest user, I want to be able to register for an account so that I can become an Account user and use the Account User's features.
- As an account user, I want to be able to search for recipes so that I can use the feature of the system to search for the recipe and preparation that I need.
- As an account user, I want to be able to reset my password so that I can create a new password to login to the system.
- As an account user, I want to be able to sort the recipes I have searched so that I can view them by multiple categories in order to search for specific ones.
- As an account user, I want to view my list of recipes so that I can check on the details of my list of recipes.
- As an account user, I want to be able to view recipes of my list so that I can get all of recipe that do not interest me any longer.
- As an account user, I want to be able to add recipes to my list so that I can save the recipe into a list of other recipes for future use.
- As an account user, I want to be able to login to the system so that I can use the features of the system to accomplish what I need.

To Do

Burndown Chart

Sprint Retrospective

Did we meet our Sprint Goal?

- Yes, completed the architecture designs
- Main Goal: to learn and be establish familiarity with our tools

What was the team's velocity?

- One hour per deliverable/documents per weekday → 52 hours combined effort

How did the Sprint Burndown look?

- Similar to before, a linear workflow of our deliverables and tasks being done. No signs of being behind schedule.
